PROFILE

Throughout my 18 months in the IT staffing industry, I was exposed to a vast world of amazing companies offering life-changing opportunities. My ever-curious mind convinced me to chase after these dreams, and so, I left the staffing world and am now a full-time Full Stack Web Developer studying at Galvanize, Inc. I am honored to be on this new journey and cannot wait to see what the future holds. Upon graduation from Galvanize, my goal is to gain a full-time position as a web developer on a team fostering innovation and growth.

WORK EXPERIENCE

SENIOR TECHNICAL RECRUITER

January 2016 - January 2017

Talent Navigation Experts (Denver, CO)

- Full life-cycle recruiting from sourcing for new candidates to placing candidates at client.
- Produced over \$490,000 in recruitment revenue from June 2015 through end of 2016.
- Created interactive candidate and compensation tracking systems in Microsoft Excel to make the recruiting process more efficient and properly focused; brought great clarity to a confusing commission program.

TECHNICAL RECRUITER

June 2015 - January 2016

Talent Navigation Experts (Denver, CO)

- Successfully learned the proper closing techniques for candidates on their offers.
- Developed a general understanding of computer science and information technology.

WORK EXPERIENCE CONTINUED

SKI INSTRUCTOR

December 2013 - March 2015

Vail Resorts (Beaver Creek, CO)

- Coached beginner, intermediate, and advanced children and adults.
- Instructed 50+ lessons over the course of two seasons for 100+ clients.
- Developed close relationships with clients in order to improve the quality of the lessons, which in turn promoted repeat business.

SERGEANT

March 2008 - January 2012

United States Marine Corps (29 Palms, CA)

- Billets held included Platoon Sergeant, Vehicle Commander, Company Administrator, and 0352 Anti-Tank Missleman.
- Deployed twice overseas to Helmand Province, Afghanistan with 3rd Battalion 4th Marines infantry battalion as part of Operation Enduring Freedom.
- Awarded the Navy and Marine Corps Achievement Award for designing a mathematical polar plot program in Microsoft Excel to more accurately determine enemies' locations and increase the lethality of the unit; disseminated throughout the ranks and widely used in combat today.
- Honorably discharged on January 7th, 2012.
